Feeding Directions

FEEDLOT RECEIVER PAC PELLET is a vitamin/mineral supplement to be fed at the rate of 1/2 lb. per head, per day to newly weaned or received beef calves.

Caution

CAUTION: Due to the copper level, do not feed to sheep. Follow label directions.

The feeding of supplemental selenium should not exceed 0.3 ppm of total diet. The addition to feed of higher levels of this premix containing selenium is not permitted.
