Vita Charge® Clench Gel

SCOURS*

* A gel for all species of livestock ideal for use during diarrhea and scours treatments to support recovery, hydration and nutrient absorption.

Key Benefits

- All-natural oral treatment that can be used during competition; no withdrawal period.
- Increases nutrient absorption to promote a normal, healthy stool.
- Electrolytes help replenish the losses animals experience through constant defecation.

Best Time to Use

When livestock are experiencing scours

Feeding Directions

Recommended up to 2 times daily as conditions persist.
